

TECHSPHERE PK

Virtual Internship — Batch 3

📖 Web Development Track

WEEK 3

Business Landing Page

Difficulty: (4/5)

Mentor: Anees Zafar — CEO & Lead Instructor, TechSphere PK

Contact: techsphere146@gmail.com | +92-344-9669414

Submit via: Google Classroom Assignment

Program: Summer 2026 · 100% Online · 4 Weeks

Tools: VS Code + Chrome + GitHub + Netlify/GitHub Pages

📖 *Read all instructions carefully before starting. Submit before the deadline. For questions, use the private comment section on Google Classroom.*

WEEK 3 — Business Landing Page

This week you build a complete, professional business landing page — the exact type of page that TechSphere PK charges Rs. 18,000 to Rs. 45,000 to create for real clients. This is real-world work.

Topics Covered This Week

- Planning before coding: wireframe your layout on paper or in Canva first
- CSS Grid: creating complex 2-column and 3-column layouts cleanly
- HTML Forms: building professional contact forms (design only, no backend)
- Basic SEO: title tag, meta description, and alt attributes for images
- Page performance basics: why image size matters and how to compress images
- Google Fonts: embedding professional typography into your webpage
- Favicon: adding the small icon that appears in the browser tab
- Open Graph tags: how your page appears when shared on WhatsApp and Facebook

YOUR TASK THIS WEEK

Build a complete landing page for a FICTIONAL Pakistani business that you invent yourself. You decide the business type, name, colors, and content. Be creative!

Business Ideas — Pick One or Create Your Own

- Fashion boutique in Lahore selling women's clothing
- Online tutoring service for O/A Level students
- Homemade food delivery in Faisalabad or Karachi
- Professional photography studio
- Personal fitness trainer and gym
- Mobile phone repair shop
- Online cake and bakery orders
- Any other Pakistani business idea you like

Required Sections — All 7 Must Be Present

Section 1 — Hero (Top of Page):

- Business name as large headline
- 1-line tagline describing what the business does
- 2 CTA buttons side by side: 'Get Started' and 'Learn More'
- A background image or gradient — no plain white background

Section 2 — About:

- Brief story about the business (3-4 sentences)
- 1 image (can be placeholder from unsplash.com — free images)
- Text and image side by side using CSS Grid or Flexbox

Section 3 — Services (3 Cards):

- 3 service cards displayed in a row using CSS Grid
- Each card: icon or emoji + service name + short description (2 lines)
- Cards must have hover effect (background color change or lift effect)

Section 4 — Why Choose Us:

- 4 benefit points with icons (can use emoji as icons)
- 2-column layout using CSS Grid

Section 5 — Testimonials (3 Reviews):

- 3 fake customer reviews — invent them yourself
- Each review: customer name + star rating (★★★★) + review text
- Cards displayed in a row

Section 6 — Contact Form:

- Fields: Full Name, Email Address, Phone Number, Message
- Submit button (styled professionally — no backend needed)
- Form must be styled — not default ugly browser styling

Section 7 — Footer:

- Business name + tagline
- 3 social media links (Instagram, Facebook, WhatsApp — can be # placeholders)
- Copyright: © 2026 YourBusinessName. All rights reserved.

Technical Requirements

- Fully responsive: must work on desktop (1200px) AND mobile (375px)
- Google Font used for headings (different from body font)
- At least one hover effect (button, card, or navigation link)
- Proper SEO tags inside <head>:

```
<title>Business Name — Your Tagline Here</title>  
<meta name='description' content='Your business description here'>  
<meta property='og:title' content='Business Name'>
```

- All images must have descriptive alt attributes
- Favicon added (can use any small icon from favicon.io — free)

📄 SUBMISSION DETAILS

File 1: Complete project ZIP (HTML + CSS + JS + images folder)

File 2: Screenshot: Full desktop view (1200px width)

File 3: Screenshot: Mobile view (375px in Chrome DevTools)

Bonus: GitHub repository link — earn +10 bonus points

Upload: Google Classroom → Week 3 Assignment → upload all files

Deadline: 7 days from this task being posted

Late policy: 5 points deducted per day late

Free image resources: unsplash.com / pexels.com / pixabay.com — all 100% free for projects

Free icon resources: fontawesome.com / heroicons.com / emojis work great too

📄 GRADING BREAKDOWN

- All 7 required sections present and working correctly **[35 pts]**
- Fully responsive on desktop AND mobile without horizontal scroll **[25 pts]**
- Design quality — professional look, good colors, proper spacing **[25 pts]**
- SEO tags + alt text on all images **[5 pts]**
- Submitted on time with all required files **[10 pts]**

TOTAL: 100 points | PASS MARK: 70/100

BONUS: GitHub repository link = +10 points added to your score

📄 *This project becomes a portfolio piece. Treat it as if it is a real client project. The more professional and complete it looks, the better your chances of getting freelance clients and jobs in the future.*

📄 Mentor Tips:

- Plan your layout on paper BEFORE opening VS Code — saves hours of confusion
- Use CSS Grid: `'display: grid; grid-template-columns: repeat(3, 1fr);'` for 3-column cards
- Unsplash.com for free high-quality images — search your business type
- CSS hover effect for cards: `'.card:hover { transform: translateY(-5px); box-shadow: 0 8px 20px rgba(0,0,0,0.2); }'`
- Font Awesome icons: add `<link rel=stylesheet href=https://cdnjs.cloudflare.com/ajax/libs/font-awesome/6.5.0/css/all.min.css>` in your head
- Week 4 will expand this into a 4-page website — build it well now so Week 4 is easier
